

# CHAPTER 3

## Reproductive Health

### Reproductive Health Problems and Strategies

- Given below are two statements: one is labelled as Assertion A and the other is labelled as Reason R. (2023)  
**Assertion A:** Amniocentesis for sex determination is one of the strategies of Reproductive and Child Health Care Programme.  
**Reason R:** Ban on amniocentesis checks increasing menace of female foeticide.  
In the light of the above statements. Choose the correct answer from the options given below:  
a. A is false but R is true.  
b. Both A and R are true and R is the correct explanation of A.  
c. Both A and R are true and R is NOT the correct explanation of A.  
d. A is true but R is false.
- In context of amniocentesis, which of the following statement is incorrect? (2016 - I)  
a. It is usually done when a woman is between 14 - 16 weeks pregnant.  
b. It is used for prenatal sex determination.  
c. It can be used for detection of Down syndrome.  
d. It can be used for detection of cleft palate.
- Which of the following cannot be detected in a developing foetus by amniocentesis? (2013)  
a. Jaundice  
b. Klinefelter's syndrome  
c. Sex of the foetus  
d. Down syndrome

### Population Stabilisation and Birth Control

- Match **List-I** with **List-II** relating to examples of various kind of IUDs and barrier: (2024 Re)

| List-I |                       | List-II |               |
|--------|-----------------------|---------|---------------|
| (A)    | Copper releasing IUD  | (I)     | Vaults        |
| (B)    | Non-medicated IUD     | (II)    | Multiload 375 |
| (C)    | Contraceptive barrier | (III)   | LNG-20        |
| (D)    | Hormone releasing IUD | (IV)    | Lippes loop   |

Choose the **correct** answer from the options given below:

- A-(II), B-(IV), C-(III), D-(I)
- A-(IV), B-(III), C-(I), D-(II)
- A-(II), B-(I), C-(III), D-(IV)
- A-(II), B-(IV), C-(I), D-(III)

- Match List-I with List-II: (2024)

| List-I |                       | List-II |               |
|--------|-----------------------|---------|---------------|
| (A)    | Non-medicated IUD     | (I)     | Multiload 375 |
| (B)    | Copper releasing IUD  | (II)    | Progestogens  |
| (C)    | Hormone releasing IUD | (III)   | Lippes loop   |
| (D)    | Implants              | (IV)    | LNG - 20      |

Choose the **correct** answer from the options given below:

- A-(IV), B-(I), C-(II), D-(III)
  - A-(III), B-(I), C-(IV), D-(II)
  - A-(III), B-(I), C-(II), D-(IV)
  - A-(I), B-(III), C-(IV), D-(II)
- Which of the following is not a natural/traditional contraceptive method? (2024)  
a. Lactational amenorrhea  
b. Vaults  
c. Coitus interruptus  
d. Periodic abstinence

- Match List-I with List-II. (2023)

| List-I |                    | List-II |                 |
|--------|--------------------|---------|-----------------|
| (A)    | Vasectomy          | (I)     | Oral method     |
| (B)    | Coitus interruptus | (II)    | Barrier method  |
| (C)    | Cervical caps      | (III)   | Surgical method |
| (D)    | Saheli             | (IV)    | Natural method  |

Choose the **correct** answer from the options given below:

- A-(IV), B-(II), C-(I), D-(III)
  - A-(III), B-(I), C-(IV), D-(II)
  - A-(III), B-(IV), C-(II), D-(I)
  - A-(II), B-(III), C-(I), D-(IV)
- Match **List-I** with **List-II**. (2023-Manipur)

| List-I |                        | List-II |                |
|--------|------------------------|---------|----------------|
| (A)    | Non-medicated IUDs     | (I)     | Multiload 375  |
| (B)    | Copper releasing IUDs  | (II)    | Rubber barrier |
| (C)    | Hormone releasing IUDs | (III)   | Lippes loop    |
| (D)    | Vaults                 | (IV)    | LNG-20         |

Choose the **correct** answer from the options given below:

- A-(IV), B-(III), C-(I), D-(II)
- A-(II), B-(IV), C-(III), D-(I)
- A-(III), B-(I), C-(IV), D-(II)
- A-(III), B-(IV), C-(II), D-(I)

(2023-Manipur)

- Choose the **most appropriate** answer from the options given below:

- 10.** Which of the following is **not** an Intra Uterine Device?  
(2022 Re)

- 11. IUDs are small objects made up of plastic or copper that are inserted in the uterine cavity. (2022 Re)**

E. The IUDs require surgical intervention for their insertion in the uterine cavity.

Choose the most appropriate answer from the options given below:

- 12.** Lippe's loop is a type of contraceptive used as: (2022)

- 13.** Match List-I with List-II with respect to methods of Contraception and their respective actions. (2022)

Choose the **correct** answer from the options given below.

- (2021)

Choose the **correct** answer from the options given below.

15. Which one of the following is an example of Hormone releasing IUD? (2021)

16. Progestogens alone or in combination with estrogens can be used as a contraceptive in the form of- (2020-Covid)

- ## 17. Select the hormone-releasing Intra-Uterine Devices. (2019)

- 18.** Which of the following contraceptive methods do involve a role of hormone? (2019)

- 19. The contraceptive 'SAHELI':** (2018)

- 20.** The function of copper ions in copper releasing IUD's is:  
(2017-Delhi)

- 21.** Which of the following is incorrect regarding vasectomy?  
(2016 - II)

- 22. Which of the following is hormone releasing IUD?**

- (2016 - II)
- |                |                  |
|----------------|------------------|
| a. Lippes loop | b. Cu7           |
| c. LNG-20      | d. Multiload 375 |

23. Which of the following approaches does not give the defined action of contraceptive? (2016 - I)

|    |                         |                                                                                             |
|----|-------------------------|---------------------------------------------------------------------------------------------|
| a. | Barrier Methods         | Prevent fertilisation                                                                       |
| b. | Intrauterine            | Increase phagocytosis of sperms, suppress sperm motility and fertilising capacity of sperms |
| c. | Hormonal contraceptives | Prevent/retard entry of sperms, prevent ovulation and fertilisation                         |
| d. | Vasectomy               | Prevents spermatogenesis                                                                    |

24. Hysterectomy is surgical removal of: (2015)  
 a. Vas-deferens                      b. Mammary glands  
 c. Uterus                              d. Prostate gland
25. Tubectomy is a method of sterilisation in which: (2014)  
 a. Uterus is removed surgically  
 b. Small part of the fallopian tube is removed or tied up  
 c. Ovaries are removed surgically  
 d. Small part of vas deferens is removed or tied up
26. Which of the following is a hormone releasing Intra Uterine Device (IUD)? (2014)  
 a. Vault                              b. Multiload 375  
 c. LNG-20                          d. Cervical cap

### Medical Termination of Pregnancy And Sexual Transmitted Diseases

27. Following is the list of STDs. Select the diseases which are not completely curable. (2024 Re)  
 A. Genital warts                      B. Genital herpes  
 C. Syphilis                              D. Hepatitis-B  
 E. Trichomoniasis  
 Choose the **correct** answer from the options given below:  
 a. A and D only                      b. B and D only  
 c. A and C only                      d. D and E only
28. Which one of the following common sexually transmitted diseases is completely curable when detected early and treated properly? (2023)  
 a. HIV Infection                      b. Genital herpes  
 c. Gonorrhoea                          d. Hepatitis-B
29. Which of the following sexually transmitted infections are completely curable? (2023-Manipur)  
 a. HIV infection and Trichomoniasis  
 b. Syphilis and Trichomoniasis  
 c. Hepatitis – B and Genital herpes  
 d. Genital herpes and Genital warts
30. Venereal diseases can spread through (2021)  
 A. Using sterile needles  
 B. Transfusion of blood from infected person  
 C. Infected mother to foetus  
 D. Kissing  
 E. Inheritance  
 Choose the **correct** answer from the options given below.  
 a. B, C and D only                      b. B and C only  
 c. A and C only                          d. A, B and C only

31. Select the option including all sexually transmitted diseases (2020)

- a. Gonorrhoea, Malaria, Genital herpes  
 b. AIDS, Malaria, Filaria  
 c. Cancer, AIDS, Syphilis  
 d. Gonorrhoea, Syphilis, Genital herpes

32. Which of the following STDs are not curable? (2020-Covid)

- a. Chlamydiasis, Syphilis, Genital warts  
 b. HIV, Gonorrhoea, Trichomoniasis  
 c. Gonorrhoea, Trichomoniasis, Hepatitis B  
 d. Genital herpes, Hepatitis B, HIV infection

33. Which of the following sexually transmitted diseases is not completely curable? (2019)

- a. Gonorrhoea                          b. Genital warts  
 c. Genital herpes                      d. Chlamydiasis

34. Match the following sexually transmitted diseases (Column-I) with their causative agent (Column-II) and select the correct option. (2017-Delhi)

| Column-I |               | Column-II |                       |
|----------|---------------|-----------|-----------------------|
| A.       | Gonorrhea     | (I)       | HIV                   |
| B.       | Syphilis      | (II)      | <i>Neisseria</i>      |
| C.       | Genital Warts | (III)     | <i>Treponema</i>      |
| D.       | AIDS          | (IV)      | Human Papilloma virus |

- a. A-(II), B-(III), C-(IV), D-(I)  
 b. A-(III), B-(IV), C-(I), D-(II)  
 c. A-(IV), B-(II), C-(III), D-(I)  
 d. A-(IV), B-(III), C-(II), D-(I)
35. Ectopic pregnancies are referred to as: (2015 Re)  
 a. Implantation of embryo at site other than uterus.  
 b. Implantation of defective embryo in the uterus.  
 c. Pregnancies terminated due to hormonal imbalance.  
 d. Pregnancies with genetic abnormality.
36. Which of the following is not a sexually transmitted disease? (2015 Re)  
 a. Trichomoniasis  
 b. Encephalitis  
 c. Syphilis  
 d. Acquired Immuno Deficiency Syndrome
37. One of the legal methods of birth control is: (2013)  
 a. By a premature ejaculation during coitus  
 b. Abortion by taking an appropriate medicine  
 c. By abstaining from coitus from day 10 to 17 of the menstrual cycle  
 d. By having coitus at the time of day break

### Infertility

38. Given below are two statements: (2023-Manipur)

**Statement I:** Intra Cytoplasmic Sperm Injection (ICSI) is another specialised procedure of *in-vivo* fertilisation.

**Statement II:** Infertility cases due to inability of the male partner to inseminate female can be corrected by artificial insemination (AI).

In the light of the above statements, choose the **correct** answer from the options given below:

- a. **Statement I** is correct but **statement II** is incorrect  
 b. **Statement I** is incorrect but **Statement II** is correct  
 c. Both **Statement I** and **Statement II** are correct  
 d. Both **Statement I** and **Statement II** are incorrect.
- 39.** In which of the following techniques, the embryos are transferred to assist those females who cannot conceive? (2020)  
 a. GIFT and ZIFT                      b. ICSI and ZIFT  
 c. GIFT and ICSI                      d. ZIFT and IUT
- 40.** In case of a couple where the male is having a very low sperm count, which technique will be suitable for fertilisation? (2017-Delhi)  
 a. Intrauterine transfer  
 b. Gamete intracytoplasmic fallopian transfer  
 c. Artificial Insemination  
 d. Intracytoplasmic sperm injection
- 41.** Embryo with more than 16 blastomeres formed due to in vitro fertilisation is transferred into: (2016 - II)  
 a. Fimbriae                              b. Cervix  
 c. Uterus                                d. Fallopian tube

- 42.** A childless couple can be assisted to have a child through a technique called GIFT. The full form of this technique is: (2015 Re)  
 a. Gamete intra fallopian transfer  
 b. Gamete internal fertilisation and transfer  
 c. Germ cell internal fallopian transfer  
 d. Gemete inseminated fallopian transfer
- 43.** Assisted reproductive technology, IVF involves transfer of: (2014)  
 a. Embryo with 16 blastomeres into the fallopian tube  
 b. Ovum into the fallopian tube  
 c. Zygote into the fallopian tube  
 d. Zygote into the uterus
- 44.** Artificial insemination means: (2013)  
 a. Introduction of sperms of healthy donor directly into the ovary  
 b. Transfer of sperms of a healthy donor to a test tube containing ova  
 c. Transfer of sperms of husband to a test tube containing ova  
 d. Artificial introduction of sperms of a healthy donor into the vagina

## Answer Key

- |         |         |           |         |         |         |         |         |         |         |
|---------|---------|-----------|---------|---------|---------|---------|---------|---------|---------|
| 1. (a)  | 2. (d)  | 3. (a)    | 4. (d)  | 5. (b)  | 6. (b)  | 7. (c)  | 8. (c)  | 9. (c)  | 10. (b) |
| 11. (d) | 12. (d) | 13. (c)   | 14. (a) | 15. (a) | 16. (b) | 17. (c) | 18. (a) | 19. (a) | 20. (a) |
| 21. (d) | 22. (c) | 23. (d)   | 24. (c) | 25. (b) | 26. (c) | 27. (b) | 28. (c) | 29. (b) | 30. (a) |
| 31. (d) | 32. (d) | 33. (c)   | 34. (a) | 35. (a) | 36. (b) | 37. (b) | 38. (b) | 39. (d) | 40. (c) |
| 41. (c) | 42. (a) | 43. (c,d) | 44. (d) |         |         |         |         |         |         |
